June 2020

## President's Message

We had a good turnout for our **2<sup>nd</sup> Quarter Member Social and Movie Night on Friday, May 29** at Eydie & Butch Tricquet's home, **17 members and guests attended**. We gathered outdoors in a covered area, stuffed ourselves on a potluck meal, with everyone ready to fellowship with others. Lynn and Joy shared some takeaways from the NFRW Campaign Virtual Trainings that took place for the past five Wednesdays. Three of our members, who are candidates, shared what's happening in their campaigns. Unfortunately, we did not watch the scheduled DVD.

Wow, it is amazing how quickly the agenda changes for the liberal left. They cease every opportunity to advance their narrative regardless of what they said just a few weeks earlier. The protests and violence in many of the larger cities in the U.S. (over targeted police brutality against blacks) are consuming the news, yet what happened to the Wuhan virus and the social distancing we were all to be adhering to? Why, is it no longer necessary as the left-leaning media encourage all to join the protests, which they hope will hurt Trump.

This election cycle is the most important in our lifetime! I know it seems we're now saying that every 2-4 years, but it is so true! We have to do everything we can, as individuals, to get President Donald Trump re-elected, as well as supporting republican candidates! You can do so from the safety of your home, if you prefer, but just do something, be deliberate.

*Mark your calendars now, **we will meet on the 4<sup>th</sup> Monday this month, June 22<sup>nd</sup> although location will be moved, TBD!***

Our speaker will be **Marva Preston**, Florida Senate District 3 candidate. This is Bill Montford's seat, he is retiring. She is also a member of the Wakulla Republican Women's Club Federated. She is looking forward to being with us on **June 22**.

*Lynn*

## KFRW Committee Updates

**All Committee Chairs:** Please e-mail monthly updates to Lynn by Sunday, prior to monthly meeting, so updates can be shared with all club members via email, newsletter, etc. *Thank you!*

**Campaign** – Even with the main purpose of our club, getting Republican candidates elected, we have yet to have a fully functioning and organized Campaign Committee so the rest of us know what to focus on and where and how we can do our part to be the most effective and efficient with our time. *If you can help, contact Lynn.*

Will you put a candidate(s) campaign sign(s) in your yard or on a property you own? If you are able, are you willing to go door-to-door with a candidate as they meet voters and hand out material? If so, please let them know.

For all members, this is the perfect time to call your friends and family and mention one of the local, republican candidates and ask their support. Encourage voters to VOTE is critical!

**Community Outreach** – To get involved, please contact Gretchen Wallace.

**Events and Fundraising** – The committee is on hold for KFRW upcoming events for now.

**Media** – This is a good time to submit letters to the editor at the Monticello News/Jefferson Journal to voice your opinion of what's getting your attention, both the good and/or the bad, as we approach the elections. Please share what our candidates are doing on your social media. If you take photos at events, *please forward via text or e-mail to Lynn S.*

*The expectation is all members will help at club events, as available, throughout the year when called upon by the committees.*

Did You Know? Wyoming, the state that pioneered women's suffrage, sent two women, Therese A. Jenkins and Cora G. Carleton, to the 1892 Republican Convention in Minneapolis as alternate delegates. This was the first time women were seated at a Republican National Convention.

Watch this video of Bill Gates purpose for developing world-wide mandatory vaccination. You won't like it: <https://www.youtube.com/watch?v=xmKiehhVeIQ> (36:47)

What's the media headline about Covid-19? We can't make a move until a NEW vaccine is available.

Bill Gates has stated he wants the entire world population vaccinated...over 7 billion people. But what is the real purpose of vaccinating the entire global population? The official line is that it is to protect world health. This a flu vaccination only which accounts for a yearly average mortality rate of from 250,000 to 500,000 per year depending upon the prevalent strain. Would anything change with universal vaccination?

Gates has been an advocate of population control his entire life, having sprung from parents who were leaders in Planned Parenthood, to which Bill and Melinda are huge contributors. Melinda says she will contribute toward having 120 million women on birth control. Both have made no secret of the fact that population control through eugenics is not only doable, but necessary. The video will show Gates technical and monetary contributions toward his extreme goals. In essence, he is developing vaccinations that can be remotely activated for on-off control of sterility in both males and females. In fact, babies at birth may be implanted with microchips to induce sterility for life.

Is this just alarmist rambling? You will see from the video that this view is shared by many of the world's most notable billionaires – Soros, Turner, Buffet, Rockefeller, etc. and planned in international conferences on population refining. This puts them all in direct league with the policies of Adolph Hitler and the Third Reich. But new technologies put Hitler's program in the dark ages. Gates microchips can record not only the complete medical record of vaccinations and treatments, but all individual movement. His goal? Every individual on this planet would be instantly traceable by cell phones, towers or tech centers. The publicized purpose would be to guarantee the health of all individuals, but that cannot be accomplished with vaccinations.

The real purposes would result in control of all aspects of life, such as access to insurance, banking, travel, child-bearing, permitting, schooling, universities, voting, resident choices, food distribution, medicine, and ad infinitum with anything a totalitarian government would choose to control. This is not new – it has been the goal of every such authoritarian government from day one. And yet, vaccination is the single biggest target of all the world's governing authorities, pharmaceutical firms, central banks, and billionaire philanthropists. Not as a voluntary health aid, but as mandatory for ALL persons. Again, for what purpose?

There is so much about this Pandemic that has failed to pass the smell test that it will be very hard for agencies to reclaim public trust. The Pelosi Cabal sees it as a huge vote-buying give-away to anyone who can drive people to the polls. Anti-Trumpsters think this is finally his Waterloo. The ChiComs see it as a very successful trial run of their plans for defeating the U.S. In the final analysis, will all the public reports be nothing more than propaganda? Time will tell. But it is a fact that America may not survive a repeat event.

**TELL CONGRESS WE WILL DECIDE IF WE WANT A VACCINATION...NOT YOU!**
